S.S.S. Typhoid Fever.

I am sixty seven years old and have lived in this (Hall) county all my life. Up to twenty-eight years ago I was regarded as the strongest man in the county. Typhoid fever left me a cripple. In November 1866, I had a long and serious spell of typhoid fever. It left me emaciated and a cripple in my right leg. At times that limb was swollen an enormous size, being twice as large as its natural condition, and inflamed and angry in appearance. From my knee down small sores came, and at the ankle a large ulcer came, which discharged poisonous matter. My whole system became infected. The doctors would probe in my leg for splints, but the ulcer would never heal. The surgery and poison affected my kidneys, and brought on rheumatism and dyspepsia. I was an object of pity to all my friends. Some thought that the only hope to save life was amputation. I continued to grow worse, and for three years I have not worn a boot. Hope had almost left me. Swift's Specific was suggested, and I commenced its use at once. From the very first I began to feel better. I have taken thirty six bottles, and the sinuses, which had darkened my life for twenty-eight years, have all been eradicated. The effect of the medicine has been wonderful indeed. To day I am able to attend to all my farming in person, and walk from one to five miles per day. I am satisfied that the disease is entirely broken up, and he is truly I am free from those terrible apprehensions and suffering which formerly made my life miserable. Swift's Specific has done more for me in one year than all the drug store medicine prescribed by physicians did in twenty eight years, as I most cheerfully bear this testimony of its merits.

From the Dissecting Room.

Having taken Swift's Specific for blood poison contracted while a medical student at a dissection, I was a speedy and thorough cure after no parents had spent hundreds of dollars for treatment. My arm was swollen to twice its natural size, and no nothing helped me. I was despairing of ever being cured. But hearing of the S. S. S., I ventured a bottle, thinking I would derive some benefit from it. I began taking it regularly, and soon the swelling began to go down and the arm ceased to pain me. I continued its use, and after taking eight bottles was thoroughly cured.

Senator Frye and Pillsbury.

WHAT THE SENATOR SAYS IN REGARD TO THE REPORT THAT HE WILL VOTE FOR THE CONFIRMATION OF PILLSBURY FOR INTERNAL REVENUE COLLECTOR IN MASSACHUSETTS.

(Lewiston Journal, May 9.)

On Thursday, a Journal reporter called the attention of Senator Frye to reports that he had said he would vote for the confirmation of Eben F. Pillsbury, nominated by President Cleveland for Collector of Internal Revenue for the Fourth Massachusetts district. The Senator said:

"The foundation for these reports, I suppose, is this: I told Charles P. Kimball of Chicago that while a Maine Senator could not vote to confirm Pillsbury for a Maine office, if Massachusetts willed to wear the old clothes put off by Maine, I do not object.

"A Senator has no right to say whether he will vote to confirm a nomination, or not. I will say that I shall be governed in this matter by the action of the Massachusetts Senators and the wishes of my constituents. If Senators Hoar and Dawes should vote against the confirmation of Pillsbury, it would be Senatorial courtesy for the Maine Senators to vote with them so long as this is a Massachusetts appointment, and if they should vote for his confirmation, the same rule of courtesy would hold good. Again, no principle is involved in this matter. I would like to carry out the wishes of my constituents. If it were a matter of principle, I would be guided by my own conscience.

"Personally, I see no reason why I should not vote for Pillsbury as quickly as for the other nominations that the Senate has confirmed. They say Pillsbury was a copperhead. Nearly every man that Cleveland has appointed to a responsible position, has either been a copperhead or a rebel. They say he stole a stuffed bird. Well, Lamar stole a State, and not only that, but helped to murder 10,000 men to carry out the scheme. The appointment of Pillsbury is as respectable as was the appointment of Lamar, and I voted to confirm Lamar."

"How about the confirmation of Capt. Chase?" asked the reporter.

"His case is different," said Senator Frye. "That is a Maine appointment in which I am personally interested. The Massachusetts Senators have nothing to do with that. And objections which do not hold good to Pillsbury's case, to my mind, do hold good in Chase's case.

"In regards to the revelations Cleveland's administration, the Senator said:

"Cleveland has received too much credit, altogether. He has not paid the least attention to civil service reform ideas. His administration has only made a pretense of keeping in postmasters who have terms. There are only 3,000 of them. They are turning out the office-holders just as fast as they can. They can't do it all at once. If they should work twelve hours a day, it would take a year to turn them all out. There are 100,000 of them, you see, and the places can't be vacated and filled by a simple sponge of change. And yet the Independents commend Cleveland for going so slow. That is all common sense. He does not deserve such commendation."

Letters from Senator Frye.

ADDITIONAL EXPLANATION AS TO HIS POSITION ON THE PILLSBURY CONFIRMATION.

(Lewiston, May 8th, 1885.

To the Editors of the Lewiston Journal

Your published interview with me in yesterday's Journal, compels me to explain, so far as I can with propriety, my position as to certain nominations made by the President. First, I never "agreed to vote for Mr. Pillsbury's confirmation," as some published statements in some of the papers intimate, nor promised to do so, nor said that I would. The rules of the Senate properly and plainly prohibit any such pledges. When it was rumored that this gentleman was to be appointed pension agent for Maine, I did say to a friend of his, with emphasis, that, in my opinion, it would be the duty of the Maine Senators to oppose his confirmation to any office in this State.

In reply to the inquiry, "What will you do if he is named for the position of Collector of Internal Revenue in Massachusetts?" I said I didn't think the Maine Senators had any special duty or interest in appointments made in Massachusetts; that they were rather for the consideration of the Senators of that state; that so far as I was concerned, I had no objections to the Democrats of Massachusetts rewarding Pillsbury for his services to the party in that way, if they pleased. In fact, I think I did say enough to justify the friends of Mr. Pillsbury in the belief that his nomination to that position would meet with no opposition from me, but not enough to prevent me from acting with perfect freedom, when the question of confirmation is presented.

And pray wherein does Mr. Pillsbury fall below the average of the nominations already made by the President and very generally approved by the press? He is a lawyer of respectable standing, a man of agreeable manners, of correct habits and of undoubted fidelity to his party. "He was a Copperhead." Yes, but no more determined and outspoken in his disloyalty than Mr. Phelps, whose nomination to the most important position of Minister to England, was so favorably viewed and so promptly confirmed; no more so than Mr. Bayard, whose Dover speech frightened even the Democrats from nominating him as their candidate for the Presidency; no more so than Mr. McLane, minister to France; no more so than Mr. Pendleton, minister to Germany, who was openly denounced as a traitor during and after the war; no more than two-thirds of the nominations thus far issued for conspicuous places. I believe every successful candidate from the South was a rebel, some of them even now, publicly defending their treachery; some of them unwilling to bend the knee sufficiently to ask the removal of their political disabilities.

"But he was an adviser in the State, it is recalled." Admitted, and his party, the same now administering the Government, from whose ranks officials are to be selected, probably stood by him; have since in every way possible rendered the attempt. Can you count on his fingers every prominent Democrat who denounces the outrage, and every Democratic paper discountenancing it, even in the mildest terms.

Again, there is hardly an intelligent man in this country, who doesn't know, and who wouldn't, in confidence speaking, admit, that at least five State governments in the South have been worse than "robbed," they have been seized not only by fraud, false ballots and false counts, but, whenever necessary, by wholesale murder. Thousands have been slaughtered simply because they were Republicans. And stood in the way of such seizures. Gen. Phil Sheridan, after careful examination, reported over 3,000 in Louisiana alone. Mississippi was wrested from the Republicans by the shot gun campaign of 1876, a prominent United States Senator being the chairman of the Democratic committee, then ruling that campaign, and now a power in the distribution of federal patronage. Another Senator from the same State, (Mr. Lamar) endorsed the frauds of that disgraceful campaign, is at the head of the most important Government department, dispensing patronage. Lowell, the ex-minister of the most absolute tyrant on the globe, champions Jefferson Davis, and is confirmed by the Senate, without division.

If you hope to see the officers of this country filled for the coming four years by men who have been true to the country for the last twenty-five years, who have been faithful to the best wishes of the people, have favored measures to defend rebellion, to restore the credit of the nation, to establish a sound currency, to purify the ballot, to secure honest elections and honest counts, to grant office to every citizen all of his rights under the Constitution, to educate the people and fit them for sovereignty, I greatly fear that you are doomed to bitter disappointment. Mr. Cleveland is no better than the average of his party, will do their bidding, and is doing it as rapidly as is possible. One hundred thousand officers can not be changed in the twinkling of the eye. It must be remembered that almost every attempt involves a contest and a decision as to the merits of half a score of applicants, each endorsed and charged by his friends. His nominations thus far indicate that the civil service reform rules and principles apply only to ten or fifteen, two or three thousand in number, and on the necks of some of the occupants of these the axe has fallen. The search seems to be not to discover where reform can be extended, but rather to find out what limitations ingenuity can devise. A silk purse cannot be made from a sow's ear.

In conclusion, permit me to say that I care nothing about Mr. Pillsbury, shall, when called upon, try to do my duty, can not expect much from a Democratic administration, and shall not be disappointed. You must not demand too much of the Democratic members, and ought to consider somewhat the source of supply. There is such a thing as "stealing a great and swallowing a camel."

Very truly, WM. P. FRYE.

Historical Memoranda

PETITION FROM PLANTATION NO. 4, NEW BRADLEY.

It is true, the Assessors in 1817, for release from the payment of State taxes for seven years (or and) they were in better credit to pay them. In 1790, this township was purchased of the Tarantines by commissioners from Massachusetts, and was called Old Indian Purchase. Occasionally a family or two would come to log, hunt, fish and farm. In 1812 quite a number of families arrived, but as will be seen by the petition, not enough for a permanent settlement, or, with ability to carry on the business of the plantation. In 1825, the treasurer of the county notified them that they must pay a county tax, and organize. They did so, and from that time was the commencement of the improvement of the great water power, within its limits. The Great Works Milling and Manufacturing Company was organized in 1833, and buildings erected. There are no less than eighteen water powers on the Great Works and Blackman Streams, and on the Penobscot River—opportunity for making it an important manufacturing centre. The town was incorporated February 3, 1835, and supposed to be named for Bradley Blackman, one of the oldest and most prominent settlers. The petition is copied from the Massachusetts records, by Dr. J. F. Pratt, Chelsea, Mass.—E. F. D.

To the Honorable Senate and House of Representatives in General Court assembled

The inhabitants of Plantation No. 4, on the east side of Penobscot River, next above and adjoining Eddington, most respectfully show and represent, that the whole number of taxable Polls in said Plantation are but eighteen, and but three of that number are freeholders; there are not over six men in the Plantation capable of writing or keeping accounts, and not one who can apportion or assess a Tax, in a legal manner, and about ten of the eighteen men in the Plantation are transient people, who decide there in the fall of each season, and when that is past, take their canoes and go either up or down the river to some other part of the country, so that we have not had time for some years to collect men sufficient on the first Monday of March or April to hold a legal Plantation meeting. What few there are of us, are obliged to make and maintain our own road through said Plantation above four miles, and to keep several bridges in repair. We suffer many other inconveniences from our own individual poverty, and the extreme barrenness of the soil in this Plantation. For the above reasons we most respectfully pray the Honorable Court to release and give up to the State Taxes that are now due and unpaid to the Commonwealth, and that hereafter at least for the term of seven years, or until we are in better circumstances to pay, that we may be exonerated from, and not called upon to pay State taxes. We would also beg leave to represent that about four miles from the river, upon a stream called Great Works, there is a considerable tract of fresh meadow, which, if cleared up we consider to be the most valuable land in the Plantation, and we are informed that gentlemen living out of the Plantation are making application to purchase those meadows; we conceive those meadows will be the only inducement to any one who may hereafter wish to purchase the Plantation. We therefore pray that those meadows may not be sold unless with the whole Plantation; but that the Honorable Court would grant to the five inhabitants of Plantation No. 4, the exclusive right of using those meadows, until the Government shall sell them with the remainder of the land, and your petitioners as in duty bound will ever pray. (1817)

(Signed) MOSES KNAPP, EBEN'R ROWELL, Assessors of Plantation No. 4.

Senator Frye and Pillsbury

Numerous paragraphs have been floating through the Democratic press, attributing to Senator Frye the assertion that he would favor or not oppose, the confirmation of Eben F. Pillsbury as Collector of Internal Revenue in Massachusetts and within a few days the Senator has made a public statement in the Lewiston *Journal*, correcting some of the errors in the reports circulated, and giving his views on the subject of Pillsbury's appointment. We publish Senator Frye's statement on our first page to-day, as the attitude of our Senators in regard to appointments is of great importance and public interest.

The Senator says the sole foundation for the reports was his statement to Charles P. Kimball of Chicago. That while a Maine Senator could not vote to confirm Pillsbury to a Massachusetts office if Massachusetts wished to write the ballot thus cast off by Maine, he did not object. He further says that he shall be governed in this matter by the action of the Massachusetts Senators and the wishes of his constituents, and as the Senator will cheerfully recognize that his constituency embraces the entire State, we assume that he will be glad to know how the Republicans of this section feel in regard to such a case, as that of Pillsbury.

We have no hesitation in expressing our belief that the Republicans of this part of Maine desire and expect our Senators to not only refuse to sanction but to emphatically oppose the appointment of Eben F. Pillsbury, Collector or any person of such character to any office of trust or honor under the United States Government. We believe that our people regard as much the duty of Republican Senators to oppose his appointment to an office of the United States in Massachusetts as in Maine, and we are very sure that what business so widely known as Senatorial courtesy during the Garfield-Conkling controversy is not present Republican party sentiment in respect to such a case.

Upon more than one of personal preference naturally the wishes of the Senators of the State in which the office is held would be given controlling consideration but we know that Mr. Frye would not accept such a rule if enforcement of the State Rights doctrine in a case would permit the Senators from a State to absolutely control the continuance in office of non-residents for offices. Our party government with the States as unitary parts of the Union, for a generation has been bloody enough without attempts in the South to assert to the doctrine that the Senators from Mississippi or Georgia could properly and absolutely control the continuance of the United States officers who should be appointed by the President in the execution of the laws of the United States within the States of the United States. We feel that we know that the Republicans of Maine expect the Senators from every Republican State to refuse to vote for any person whose record is of a character to encourage the presumption that he will use the patronage given them to the injury of the people.

We feel that Pillsbury's record is such that even those who have been appointed under the Administration should hesitate before they would be willing to be known as the advocate and consort of Republican officials and office seekers. Senator Hill of New York, just publicly rebuked his Senatorial colleague for appointing the brother of a United States Senator to a place in the Treasury Department, and such an appointment would be a very mild affair when compared with that of Pillsbury.

We do not believe that any Administration, Democratic or Republican, would be responsible for such a bad appointment if the President knew the facts. Unfortunately, however, the Administration is not taking the pains to ascertain the facts in such cases. So Republican correspondents in asking to write to our friends in Massachusetts and find out why Pillsbury has been appointed in Washington and how he intends with the powers of U. S. District Attorney, a man known to be violently opposed to the enforcement of the laws of the United States for the protection of the rights of citizens. If the Democratic Senators can put such a man into power, they will let the world see that they do not care what kind of a Republican they have, so they get a Republican out of the way.

If Mr. Wright is dropped and one more in sympathy with the political sketches of the President appointees, no one ever having heard of many of the chosen before, it will be a matter of regret.

It is reported in Washington that Hugh Garland is promoted Secretary Manning knows how to appreciate the right kind of a reformer and will do his reward Hugh in due season.

Louisiana elects its Legislature for four years and the present body lasts until 1888. But no Legislature will be chosen in 1888 and during its term of office will elect two United States Senators.

Mr. William Walter Phelps sailed Saturday in the Republic for Europe. He goes abroad partly for the benefit of his health which has been impaired by long continued over work and partly on some literary work for the *Tribune*.

We are informed that the statements published that the Republican Mayor of Augusta had endorsed Morton for postmaster and that Senators Edmunds and Sherman had written letters favoring him are absolutely false, as we supposed they were.

A prominent Democratic member of the Ohio Legislature, in arguing against the Registration law, declared that "The bill will be harder on the Democratic than on the Republican party" and promised a big Democratic vote in Cleveland next October if that city was excepted from the operation of the measure.

"Gen." Sparks, the new Land Commissioner, is in trouble. He forcibly ejected one of the special agents of the department from his office, and now the Inspector proposes to take the bombastic commissioner into the police court and ascertain whether or not he owns the Government building.

Dr. J. E. W. Thompson, a colored man, who is described as a life-long Democrat, has been appointed Consul General to Hayti. His life can hardly have been a very long one says the Providence *Journal*, or else he was of a very forgiving nature for the injuries and ignominies inflicted upon his race.

Mr. Leopold Morse who expressed so much indignation at the appointment of Pillsbury has since become one of his bondsmen. Mr. Morse has just been elected vice-president of the Fifth District Civil Service Reform Association and the *Globe* thinks the Mugwumps must have forgiven Pillsbury when they take up one of his bondsmen.

The Philadelphia *Times* remarks "Postmaster Pelham, of Chicago is probably convinced by this time that President Cleveland did not look upon the Pearson case as a precedent. Well, we would like to know who did, unless it was some Mugwump who was trying to deceive himself into believing that he was justified in supporting a Democrat on a reform basis?"

Following close upon the Boston *Herald's* indorsement of one of the President's foreign appointees that he is "a tall, handsome man" comes the New York *World's* indorsement of the recently appointed Minister to Switzerland, Boyd Winchester of Kentucky, on the ground that the people of that country will now have a splendid opportunity to learn the delights of draw poker.

The new Minister to Russia, Mr. Lathrop of Michigan says the New York *Evening Post* "is one of the best selections made by President Cleveland for any branch of the public service." Mr. Lathrop is a man of the same type as Minister Phelps. As Mr. Phelps was his chief distinction as a villifier of Abraham Lincoln the loyal people of the country will not agree with the *Post* about the wisdom of the selection.

Augusta, Maine.

A Little Biased

[Boston Journal.]

Speaking of President Cleveland the Boston *Herald* says:

As a result we believe he commands the sympathy of the great body of the people who are neither office hunters nor cranks. In his adjustment of his course which he is steering between the two extremes, and is gaining steadily in the good opinion of the moderate men of both parties.

The *Globe* and *Herald* must brush up their sun bonnets or the *Traveller* will lead the chorus in paying great compliments. Are we to understand that all who do not see the great merit of the President, which is so apparent to the *Traveller* are office hunters or cranks, or possibly lack patriotism.

New Magazines.

THE ENGLISH ILLUSTRATED MAGAZINE for May contains much interesting matter. The frontispiece is a handsome engraving "The Lady of Shalott" by W. Biscombe Gardner from a drawing by H. Ryland. Archibald Forbes has a timely and interesting character sketch of "Wolseley" with a fine portrait. "Legends of Folklore," by John Lomas are most entertaining and attractively illustrated by A. D. McCormick. About the Market Gardens," by Dewey Bates with illustrations by the author, is a well written and interesting article. The serial "A Ship of 49," by Bret Harte, is concluded in this number in a most satisfactory manner. "A Family Affair," by Hugh Conway, is one of the most interesting works of this brilliant author and the chapters in this number cause the reader to await the June publication with eager anticipation. Taken as a whole the English Illustrated is entitled to a high place in the ranks of the monthly magazines. Published by Macmillan & Co., New York. $1 75 a year.

SENSELESS RETORT.

There is an old and senseless retort which the Genius of Life Insurance often employs, to the effect that they do not care to play a game in which they have to die to win. Others (quite invariably of humbler and improvident) decide against the plan because, as they say, "it does me no good." I don't see why I should spend money for something that I can't handle and profit by myself. Others "What do I care for them? Let them grow up and take care of themselves! As I had to! All this sort of talk reminds us of the old man who was busy in planting and grafting an apple tree, when some one quietly asked "why do you plant with great calmness he raised himself up, and leaning on his spade, replied: Some one planted the trees before I was born, and I have eaten the fruit. I now plant for others, that the memorial of my goodness may live when I am dead and gone."

The Katahdin Iron and Land Co.

The undersigned proposes to organize a Corporation for operating the property known as the Katahdin Iron Works.

After very large expenditures of time and money the difficulties in the way of making a high grade of iron at these works have all been overcome. The reputation of the Katahdin is fully established and its luxury assured by that of any iron made in this country, and the Bangor and Katahdin Iron Works Railway now runs to the furnace door.

At time of the bursting of the Iron Works in 1883, the product was in daily use by such parties as the Ramapo Wheel and Foundry Works N. J. The Rochester Car Wheel Works N. Y. The Taylor Iron Works N. J. The Wason Car Co. Springfield, The Washburn Co., Worcester. The Portland Co. Me. The Steel Co. of Conn. & N. Y.

In a recent letter the Manager of the Ramapo Wheel and Foundry Co., one of the largest and most conservative makers of car wheels, this writes:

"I have found the Katahdin Iron as manufactured by you, exceedingly satisfactory, and should you resume your works you can count upon large orders from us."

I have examined very carefully your statements in regard to your enterprise and am satisfied the enterprise is a good one and can be made to pay, and I think now is a good time to take hold of such a matter. You are at liberty to refer to me for my opinion. Yours truly,

W. W. BROWN, Gen'l Manager.

Having recently secured important modifications of the lease which gives me control of the property, production in terms of royalty and rates of transportation—these two items alone amounting to over $8,000 per annum—I proposed to rebuild the Works to a capacity of 500 to 600 tons per month.

Contracts for this amount are now offered for Katahdin iron at prices that will pay 30 per cent. per annum on the capital stock, and such high grade iron are selling to-day at least $3 00 per ton *below the average price for past forty years*, and will soon be materially higher.

The Capital Stock of the Company will be $75,000. One-half of this amount will be locked in payment of the Lease and existing improvements. The balance $37,500, will be used for rebuilding and for working capital. This amount is offered at par in sums of $100 and upwards in order of subscription received.

The Full at investigation is invited. Further information on application to

BELL'S King of REMEDIES for the Blood, Stomach or Liver.

Unsolicited Testimonials from many who have tried it

A. M. ROBINSON, Jr.—Dear Sir: I have been using Bell's Sarsaparilla in my family, I take it for my trouble, poor appetite and general debility, and I wish to say it proved my condition. I have found that it contains all that claims. Spring medicine. Yours truly,

Bucksport, Maine, May 11, 1885.

FROM THE REGISTER OF DEEDS FOR HOLLAND.

Having used Bell's Sarsaparilla in my family, I take it for general use, and especially in cases where the system is debilitated, gave it to our children when getting over the measles, building the system and giving an appetite. A friend of mine, continually with headache. She commenced taking the Sarsaparilla and relieved. She continued to take it in small doses and has not. Yours truly,

A. M. WARREN.

FROM A. J. DARLING, FISH AND GAME WARDEN.

My son was terribly afflicted with boils (the result of a cold) on face and neck. I have given him Bell's Sarsaparilla and the boils have disappeared. He has been well and strong ever since.

Flower Seeds.

I am now prepared to offer to the public my usual assortment of Flower Seeds, which I have selected with great care, and which I can recommend as being fresh and true to name. Those who have tried them will be pleased to hear that I have not advanced the price, but still continue to offer them at the old rate, viz., 5 cents per paper, or 50 cents per dozen. Those who have not tried them will find it to their advantage to try a few papers, and I feel sure they will be satisfied. Those who have tried them will find the same good seeds they have been accustomed to buying of me. SALT LAKE

How President Cannon Received His Sentence

SALT LAKE CITY, May 11 When Angus
Cannon, President of the Mormon
State, was called up for sentence Saturday
he said he was conscious of having
violated no law His conscience was serene
He loved his children and was gratified
to hear the Court say that the law had
made them equal heirs He inferred from
this that in case he died intestate his children
would be equal heirs before the law
and he thought, in view of this fact that it
was unjust for the child a mother and living
with them and their mothers at the
table

His record was before the country and
his heart and conscience were visible to
God the record of his life in contact
with this people bore him up to receive
such a sentence as the court should impose
He felt pleased also that the court
had stated that his conduct towards his respective
wives since the passage of the
Edmunds bill should be taken into consideration
when sentence was being passed.
He would now submit and bow to the
decree of the court, trusting to be able to
bear up under any sentence it might inflict
in such a manner as to give evidence to his
children that he had not lost his manhood
Mr Cannon's speech was received with
great applause which the marshals had to
check

MARINE INTELLIGENCE

Loss of the Steamer Helvetia—Reprehensible Conduct of a German Captain—Damage to Steamer Minerva.

HALIFAX, N S, May 11 The White
Cross line Belgian steamer Helvetia, 1161
tons from Antwerp, April 23d for Montreal
sank off Scatterie Cape Breton, on
Saturday This is the fourth steamer
which this line has lost within as many
years It is a remarkable coincidence that
Captain Schoonhoven, who commanded
the Dunlai Steinmann, was also in command
of the Helvetia and this was his first
passage across the Atlantic since that ill-fated voyage

The Helvetia arrived in the Gulf of St
Lawrence over a week ago and was knocking
about in the ice for the past seven or
eight days, getting her bows stove and
being otherwise damaged and leaking
badly On Friday Captain Schoonhoven
left Cape Ray and bore up for Sydney
having all he could do to keep the ship
afloat On Saturday the Acadian took the
Helvetia in tow and headed her for Louisburg
but she had not gone far before Capt
Schoonhoven signalled that he was sinking
Boats were lowered and the passengers
and crew got into them as soon as
possible but none too soon! The last boat
had hardly got clear before the Helvetia
went down and sank.

The crew of the steamer Helvetia were
landed at Canso and will arrive here tonight
The ship and cargo are a total loss
The Helvetia left Cape Ray May 7th
with her bow stove in by the ice for the
strait of Canso, in company with the German
steamer Kehrwieder, whose captain
knew the state the Helvetia was in but as
the captain of the latter states, left the
damaged steamer to itself The Norwegian
steamer Minerva, of Bergen, coal
laden for Montreal, left Place Bay, C B,
on Saturday morning and at noon that day
struck the ice off Ingonish damaging her
bows She arrived at North Sydney yesterday
with her bulkheads full of water
She will have to discharge her cargo

A Contagious Cattle Disease.

NORTH CONWAY, May 11 It is feared
that a contagious disease has broken out
among a herd of cattle owned by W D
Lasker, of Lower Bartlett. Three have
already died very suddenly. Red spots
were found on their tongues, also on the
tongues of others of the herd. As the
three that died stood side by side in the
barn it leads to the belief that the disease
is contagious. The Secretary of the State
Board of Health has been telegraphed to
come and investigate.

An Express Messenger Supposed to Have Fallen from a Train.

CONCORD, May 11 Charles D Prescott,

missed until after the train left Manchester. A special train bearing a surgeon and
several officials of the Express Company
left here at 10.30 to-night to search for
him.

Failure of an Old Commission House.

CLEVELAND, May 11 D. Morris & Co.
[illegible]

Thursday, May 11.

[illegible] particulars of the fight have not come to hand The killed are placed at 18 and the wounded at 23. The list has not yet been received. The rebel loss is variously estimated at from 50 to 85. Two of Kali's counsellors were shot. Gen Middleton captured several rebels in the revine. They were driven out of the rifle pit and were trapped in it before they knew it. They were taken to the camp and a guard placed over them. They state that the night before the battle Kali addressed his men, haranguing them on the matter in which the half-breeds were oppressed. He said he knew the troops were coming but that with God on their side the half-breed must and would prevail.

Government Knows Nothing More.

OTTAWA, May 11. She is a cousin of Gen Howell, of the banking firm of Decker, Howell & Co, and had about a quarter of a million dollars in her own right. The marriage was kept quiet until early last week, when the couple told the lady's mother and then went to Boston and told Mr Wallack, the older. He last was greatly astonished The young couple were forgiven on all sides and are now stopping at Lester Wallack's residence at Stamford

THE PITTSBURG TRUNK HORROR.

The Sicilian Murderer Taken to Chicago.

CHICAGO, May 11 Augustine Jarado, the Sicilian, who was brought back from New York by a detective to answer to the charge of murdering Filippo Carusa, the man who was found dead in a trunk at Pittsburg, is now locked up at the central station Late evening Jarado was taken from his cell and conducted to the private office of Lieuts Shea and Ripley Detective Bonfield and Officer Morris, an Italian policeman, who has done most of the work on the case, were also in the room Morris speaks Italian fluently and he at once began interpreting for Jarado the questions asked by Shea and Ripley. Jarado, after much questioning, admitted that he took a trunk to the depot and also that he left New York with Victori Cumiato the next day When Jarado was brought out he was evidently very much frightened The officers were jubilant, but none of the detectives would say anything further as to the extent of Jarado's confession.

Jarado Identified by the Expressman.

The police to-day found the expressman who carried the trunk containing the body of Philip Carusa to the depot The man taken to the central station where he identified Jarado the man arrested in New York, as one of the persons who engaged him to carry the trunk.

The Advance to Khartoum Practically Abandoned.

Lord Hartington, Secretary for War,
stated in the House of Commons this afternoon
that the decision reached by the Government
in regard to Soudan practically
involved the abandonment of the advance
to Khartoum.

Lord Hartington continuing said Government
had resolved to make Wady Halfa
the most advanced position in the permanent
defense of Egypt. The British troops
would be withdrawn as soon as the military
ties. It is expected the rising will occur
about the end of May. The withdrawal of
the troops involved the abandonment of
the engagement to advance to Khartoum

Afghan Frontier Question Concluded.

Mr. Gladstone announced that he was
about to present to the House some most
important papers in regard to the foreign
policy of England in her relations with Afghanistan.
He then stated that an arrangement
had been effected between
Granville, Foreign Secretary, Earl of
Kimberly, Secretary for India, Baron De
Staal, Russian Minister to England, and
M. Lessar, special Russian agent in London,
in regard to the Afghan frontier
The arrangement was approved by Her
Majesty's Government and to the Earl of
Dufferin, Viceroy of India.

No sooner had Mr Gladstone done
speaking than the Conservatives opened on
him and his Government in the bitterest attack within their power to make. This
was led by the Right Hon Lord George
Francis Hamilton He seized an occasion
for making his attack by moving the
consideration of the amendment given notice
of by Sir Stafford Northcote last Friday.
This amendment moves on the second
reading of the consolidated fund bill, a
first vote of censure against the Government,
and concludes in the following
words "The House having shown their
readiness to vote supplies refuse to assent
until informed of the present policy and
progress for which the money to be
granted is to be applied"

Lord Hamilton, in moving the consideration
of the amendment said "The Right
Hon Marquis of Hartington, Secretary of
State for War, has just made the most
extraordinary statement which ever fell
from a Minister in this House After announcing
the intention of taking Khartoum
the Government have abandoned the
abandoning of Suakim after having ordered
sixteen thousand men Yet the
Government expect this House to acquiesce
silently in their policy The greatest
danger to the country is the incapacity of
the men in office (Conservative cheers)
The Government have surrendered every
one of the questions between them and
Russia. The Prime Minister has altogether
abandoned the attitude by which the Government
obtained the vote of credit The
great objection I have to the Frontier is
that from the very day he assumed office
until now he has shown a readiness to

for the Soudan account Mr
Gladstone replied that the Government had
already spent a great deal of money in the
Soudan, but was unable at present to say
whether any portion of the $22 000,000
would be saved

Mr Gladstone then moved for the second
reading of the consolidated fund bill the
$35,000,000 credit

BEST GOODS ARE BUT IN SMALLEST PACKAGES.

The old proverb is certainly true in the case of Dr Pierce's Pleasant Purgative Pellets which are little sugar-coated pellets scarcely larger than mustard seeds, but finding as much cathartic power is done up in the biggest, most repuls

STATE NEWS.

Androscoggin.

The united ages of the first panel of the Traverse Jury at the Supreme Judicial Court in Auburn is 505 years—the average age being about 50 years. Their united weight is 2,060 lbs., or 174 1-6 on an average. In politics they are 8 Republicans, 3 Democrats and 4 Greenbackers.

Members of the Lewiston city council committee on property charge that a majority of that committee have let a contract for 225 tons of coal for the city to Messrs. Harper & Coughlin at $5.85 per ton, when there was a lower offer of the same kind of coal by Mr. J. N. Wood at nearly fifty cents per ton less.

For several years infringers upon the trade mark, Poland Water, have been leniently dealt with by the owners of the same until forbearance has ceased to be a virtue, and a suit was brought in the United States Circuit Court at Boston against an infringer about six or eight months ago. Judgment has been rendered in said suit, and a decree for an injunction entered against the party, with damages and costs.

Winthrop people in throngs were on the streets of Lewiston, Friday, when a special train furnished by Manager Tucker of the Maine Central road, gave free passage to the city to all desiring to attend here the funeral services of Daniel F. Hegarty, formerly station agent at Winthrop. Many drove to Lewiston in teams. The services, which were held at the St. Joseph's Catholic church, were very largely attended. A prominent business man of Winthrop said to the *Journal* that the death had occurred for years, in that town, that cast such a gloom over its people. Factories, stores, all places of business closed. The train returned at 1 P. M. Mr. Hegarty was twenty-nine years of age.

The Salvation Army now has enrolled in active service, one hundred and twenty-five soldiers. We have converted, since opening battle in Lewiston, over four hundred persons, many of which have joined the churches," said an officer, Friday, to the *Journal*, "and we are still in heavy marching orders having done good enough, we think, to merit a jubilee andledge us to harder exertions in the future. The jubilee of the Salvation Army will be held May 30, and 31. Major Smith and staff will arrive on the afternoon train, Saturday afternoon, May 30th. The Army in this city will meet them at the train. From five o'clock to seven a banquet will be held in the Salvation Army barracks, the Army being unable to obtain City Hall on account of previous engagements for Memorial Day exercises. From seven to eight o'clock, a grand mounted parade will be given. A war chariot will be drawn through the streets. In the evening a grand jubilee meeting will be opened which will be continued on Sunday, continuing in session afternoon and evening."

Lincoln.

The steam tug City of Richmond has been thoroughly painted and repaired, and went on her route last night.

Capt. J. L. Chase of schooner J. Baker, who has been to the Marine Hospital for the last two months, is rapidly recovering the use of his legs, and expects to be out soon.

It has been stated by members of both Democratic and Nation al Greenback companies, that each company has voted $75 towards the expenses incidental to a celebration of the 4th by Brunswick, mainly to entertain visiting brethren.

The residents of Brunswick and Maquoketa, Portland, have lately petitioned for a better water supply. A committee has investigated the matter and find that the trouble is due to the waste of water in other parts of the city. Means will be adopted to remedy the evil.

The Lefebre Council scalding case at Saccarappa has been referred from court, the matter having been settled upon Lefebre's paying to the Council boy $ further $100 and settling the costs of court. It will be remembered that Lefebre was arrested for throwing hot water on the Council boy.

Charles Goodhue, a young man of Saccarappa, Friday, stole a $25 watch from his brother-in-law, and bringing it to Portland, sold it to pawn-brokers. Mr. Earland, the young man from whom the watch was stolen, found the fellow, and with a Officer Moserure and Mr. Donough arrested him. They settled it among themselves.

Franklin.

A meeting of twenty-six citizens interested in the proposed water works, was held in Phillips, Thursday. S. M. Jordan, L. J. Cole, Samuel Farmer and N. F. Jordan were elected directors.

A Rangeley correspondent of the Farmington *Chronicle* writes: "Since Rangeley Lake has gone, and the best judges say it will not until about the middle of May, and it was but a few days ago that we saw teams crossing the lake."

Mrs. Charles Lufkin, of West Phillips, who died not suppose she had a brother living. Learned a short time since that her brother, Jason Lufkin, who went West over forty years ago, when but ten years old, was in Mt. Masterman, Ill. Weld, is living in Ass Ill. He served three years in the army and has good health. The brother and sister now exchange letters.

Dr. J. A. Richards, for several years a very efficient member of the Pension Examining Board in this county, is hereby notified that he is regarded. It is reported that Dr. P. Dyer, of Farmington, is appointed in his place. For Dr. Dyer, died the death of Dr. Eaton. It is supposed Dr. H. Russell has been appointed. Dr. Higgins will probably be allowed to remain on the board at present.

Mr. Timothy Vining, one of the selectmen of Avon, while out on town business, on a last week, was taken suddenly ill and unable to reach his home. In passing a farm house from Phillips and took him to the nearest house, that of Fernando Dow, where he lay sick for a week. He was removed to his home. He is still very low.

Kennebec.

Information reaches that the water in the river has been very low for a long time.

The family of Mr. Harris, Gardiner, received of Pegus last week.

Rev. Mr. Wells, the rector of the Episcopal church, has been appointed chaplain at the National Soldiers' Home.

The First Baptist Church of Augusta celebrated an Arbor Day Friday, by planting one hundred elms in front of their church.

The Gardiner Lyceum for another is good. Further demands are made that there is no usual amount of building in Augusta this present season.

Assessors have seven post offices and the number has been published in seven newspapers. It may have in New England. But Hallowell assesses seven post offices. Best day seven, while Farmer has eight.

Mr. Elias Hammond, while at work in the basement of Dutch Block, Augusta, Thursday, was struck on the head and shoulders by one end of a falling girder, the dimensions of which were 12x12 inches and 12 feet in length. The timbers of one shoulder were badly strained and he was insensible for a short period. He was better Friday, and will probably be out again in the course of ten days.

The case of the two brothers, Daniel F. and Dennis Hegarty, is a peculiarly sad one. Both were in the employ of the Maine Central railroad, the former as station agent at Winthrop, the latter as ticket agent at Hallowell. Daniel died on Wednesday, and Dennis is a lunatic. The latter visited his brother a short time, but was so demented that he neither realized nor remembered the occurrence. All knowing the case can but sympathize with the bereaved relatives.—*Kennebec Journal.*

Knox.

The schooner Charles Haskell, of North Haven, which went ashore at Sandy Hook in the gale of April 29, has got off and is now in New York. She was damaged to the amount of $800, insured.

There is considerable talk in the locality of Vinalhaven over the proposed quarantine station at Widow's Island, Fox Island Thoroughfare. The North Haven people believe it will be the means of keeping away persons who make this place their summer resort, and who have been erecting houses on the island of North Haven.

Lincoln.

The dwelling house owned by John F. Farnham, and one occupied by him, situated at Brown's Cove, Bristol, were burned Monday evening. The burning house set fire to the one adjoining. The cause is supposed to have been a defective chimney. Insured for $500.

Oxford.

Jeryan K. Mason, D. D., of Fryeburg, has been engaged to deliver the memorial address before Thompson Post, G. A. R., at Cornish.

One of the most successful business men in Oxford county is Mr. C. B. Cummings, of Norway. There are few men who are able to keep as many irons in the fire as he, and keep them hot. He and his sons run a box factory, a "pancake shop" (in which scraps of leather are moulded into heels), a grist mill, a saw mill and a furniture shop. In these various industries, they employ eighty to one hundred men, with a pay roll of $800 a week. Mr. Cummings is a self-made man and has built up these industries from small beginnings. He started his business life in Norway with $500 invested in a small furniture store and his housekeeping utensils. A few years ago, his mill burned down. Before the sun set on that day, he had teams in the woods cutting timber for a new mill. Such enterprise as this, has done very much for the upbuilding of the thrifty village of Norway.

The town of Norway will probably celebrate the centennial anniversary of its settlement, next year. In 1786, Joseph Stevens, Jonas Stevens, Jeremiah Hobbs, Amos Hobbs and George Lessley came to the border of Pennesseewassee Pond, in what is now Norway, and began to clear a farm. They built a log cabin in the first place and lived on fish and game. They were in the primeval wilderness. After a while they built a frame house 16 feet by 20, with a stone chimney, with the top cutted out, that is a chimney top made of boards laid in mortar. Four families lived in this little house for a long time. One of the men had left his wife at Paris, so after the frame house was completed, he went back after her. They walked to Norway—he with his plans full of household wares, and she with her baby strapped to her back, crossed the brook on a log, and paddled up the pond to their home in a canoe.

Piscataquis.

A correspondent of Maine *Industrial Journal* thinks Howes bank is the best editorial center of the State.

Sagadahoc.

Shad are being netted in the Kennebec river at Bath. One or two salmon have also been taken.

The firm of Deering & Donnell, of Bath, report a rush at their ship yard. They are now building three schooners and repairing one. They employ ninety men, the largest number in the history of the firm which was formed in 1862.

The offices of collector of taxes and city treasurer, of Bath, have been merged into one and the salary fixed at $1,300. The present incumbent of the latter office has been up to fill the dual trust. Whether he will accept or not is a question.

Conductor Jewett says that a farmer explains how it happened that a plank was found across the track near Richmond just before the train came along, causing the despatch to be sent that an attempt had been made to wreck the train. It seems that the farmer desired to cross the track with a heavily loaded team. The plank crossing had been taken up as usual for the whole. He placed a plank beside the rail to ease the wheels over, which probably slipped and fell across the rails. He did not notice it at the time, and it was not found until the train came along.

Waldo.

The Belfast *Journal* says, James S. Harriman has in his possession an old fire bucket that was used in this city in 1821. At that time there was a bucket brigade here, each member having two buckets which, always hung in the entry. In case of a fire this brigade was very proficient in passing water. The buckets were made of leather. The one in Mr. Harriman's possession is in a good state of preservation, and is marked "Elijah Torrey, 1821."

Washington.

It is reported that a new company is being formed to buy the Pembroke Iron Works. The works have been closed some time.

The G. A. R. Post, of Calais, are making arrangements for memorial day, May 30th. Mr. Sheehan, a member of the First Maine Cavalry during the rebellion, is to deliver the oration.

Steamer General Lawrett is again on the route between Eastport and Lubec, but looks well after the recent plating she received. The Lafayette is a staunch little boat and is well patronized.

York.

Mr. Samuel Bragdon, a farmer living on the west side of Mousam river, Kennebunk, while at work plowing in the field Tuesday, dropped dead from heart disease. He was about seventy-five years of age.

The wife of Deputy Sheriff Small was walking along the piazza at her home in Saco, Wednesday evening, and making a unlucky fall through a window, cutting one of her arms very badly on the glass.

Mousam Lodge of Odd Fellows of Kennebunk, celebrated its fortieth anniversary, Friday, by a street parade, in the afternoon and a dinner in the hall, followed by speeches, by Messrs. Burnham, Joshua Davis, Freeman Merrill and others. In the evening there was a concert by Chandler's Band, followed by a ball.

Hon. Ferguson Haines has sold his fine residence on Adams street, to the St. Joseph's society in Biddeford, for $18,000. The house will be used by the Sisters of the convent of the Sacred Heart as a dwelling. A schoolhouse for the children connected with the convent, will be erected back of the house, work upon which will be commenced in a very short time.

AYER'S Cherry Pectoral.

No other compounds are so influential in their attack as those affecting the throat and lungs—none so to find with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 81 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

HORACE FAIRNHOLMES."

Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup. It seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA CHERRY."

159 West 126th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried. A. J. CRAMM."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALDER."

Dyhalia, Miss., April 8, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung trouble. E. DRAGOON."

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.

Davis Patent Clapboard Machine.

The Davis Patent does away with Turning Works or Supers, as it is provided with three sets of collars and supplying knives on the saw arbor, and saps the bolt at the same time. The sawing arbor extends across the Machine, and the saw is outside of the frame, which prevents the saw-dust from clogging the gearing; and, in changing saws, you simply take the nut off end of arbor, and remove collars and saw without disturbing arbor.

The saw runs 2200 revolutions per minute, and the Machine will cut from 5 to 6 M. per day, an average of 500 per day over the old style machine.

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents if above and have their letters addressed accordingly.

Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number, and they will be delivered earlier than if the address put on at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning, noon and evening in season for the important mails.

Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M., and from 8 to 8½ P. M. Sundays from 8½ to 9½ A. M.

Any irregularities in the Carrier's department should be reported to the office.

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Cashier's window) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within five days or less, written or printed, with the writers name, office and State, across the left end of the envelope, on the face thereof, will be complied with.

The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.

First class envelopes of above furnished at $22.50 per thousand.

Stamps cut from Stamped Envelopes cannot be used to prepay postage. The use of such Stamps is punishable by a fine of fifty dollars. Stamped Envelopes, spoiled in directing, are regarded as dead at this office.

FOR THE USE OF

AYER'S PILLS

DOSE.—*To move the bowels gently, 2 to 4 Pills; thoroughly, 4 to 6 Pills. Experience will decide the proper dose in each case.*

For Constipation, or Costiveness, no remedy is so effective as AYER'S PILLS. They insure regular daily action, and restore the bowels to a healthy condition.

For Indigestion, or Dyspepsia, AYER'S PILLS are invaluable, and a sure cure.

Heart-burn, Loss of Appetite, Foul Stomach, Flatulency, Dizziness, Headache, Numbness, Nausea, are all relieved and cured by AYER'S PILLS.

In Liver Complaint, Bilious Disorders, and Jaundice, AYER'S PILLS should be given in doses large enough to excite the liver and bowels, and remove constipation. As a cleansing medicine in the Spring, these PILLS are unequalled.

Worms, caused by a morbid condition of the bowels, are expelled by these PILLS.

Eruptions, Skin Diseases, and Piles, the result of Indigestion or Constipation, are cured by the use of AYER'S PILLS.

For Colds, take AYER'S PILLS to open the pores, remove inflammatory secretions, and allay the fever.

For Diarrhœa and Dysentery, caused by sudden colds, indigestible food, etc., AYER'S PILLS are the true remedy.

Rheumatism, Gout, Neuralgia, and Sciatica, often result from digestive derangement, or colds, and disappear on removing the cause by the use of AYER'S PILLS.

Tumors, Dropsy, Kidney Complaints, and other disorders caused by debility or obstruction, are cured by AYER'S PILLS.

Suppression, and Painful Menstruation, have a safe and ready remedy in

AYER'S PILLS.
